Total distances above include both marine and land. The distance calculation from Asia is based on average distances from Shanghai, Busan, Tokyo and Singapore. Total distances are calculated using Houston, Texas for the Gulf Coast and Fort Saskatchewan for Northern Alberta. Visit portmetrovancouver.com/projectcargo to learn more.
BRITISH COLUMBIA, CANADA, EXPANDING THE HEAVY LIFT CORRIDOR

• The British Columbia Ministry of Transportation and Infrastructure (BC MoTI) has identified the movement of oversize-overweight (OS-OW) vehicles, including project cargo, as a high priority under the recently released Provincial Transportation Plan - BC On the Move.

• BC MoTI has committed to work with industry to develop a number of provincial highway corridors pre-approved, with pre-determined permit conditions, for 125-metric tonne OS-OW vehicles from BC’s west coast marine terminals to the BC-Alberta border and north-east BC. Pre-approved corridors for OS-OW vehicles provide greater certainty of approval and enable trucking companies to get the permits they need more easily and quickly.

• Work is underway to evaluate the proposed corridors for vehicle combinations that would qualify for pre-approval with a 48-hour permit turnaround time at vehicle weights and dimensions above those identified in the table on the opposite page.

• In addition, permit conditions governing travel times, pilot car requirements, and transportation management plans are also being reviewed.

• Permits for larger and heavier vehicle combinations that exceed pre-approved weights and dimension limits will continue to be available under BC MoTI’s current Extraordinary Load Approval Process.

• Furthermore, introduction of a new automated online permitting system will provide trucking companies with the ability to obtain permits 24 hours a day, 7 days a week, with no wait times.

• A permit must be issued by the Ministry’s Commercial Vehicle Safety and Enforcement (CVSE) Branch prior to transportation.

STAKEHOLDERS CONTRIBUTING TO CORRIDOR EXPANSION WORK:

- Apex Specialized Rigging & Moving Ltd.
- Mammoet Canada Western Ltd.
- Triton Transport Ltd.
- Mullen Trucking LP.
- Len’s Transportation Group Ltd. (dba Ranger Transport)
- MAK Transportation Services Inc.
- Supreme Structural Transport Ltd.
- Nickel Bros LLC.
- Fraser Surrey Docks (FSD)
- Lynnterm (Western Stevedoring)
- British Columbia Trucking Association (BCTA)
- Chamber of Shipping British Columbia
- British Columbia Ministry of Transportation and Infrastructure
- Port Metro Vancouver
General Guidelines for Transport Under Permit

<table>
<thead>
<tr>
<th>PERMIT NOT REQUIRED</th>
<th>OVERALL LENGTH</th>
<th>OVERALL WIDTH</th>
<th>OVERALL HEIGHT</th>
<th>GROSS COMBINATION VEHICLE WEIGHT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alberta and British Columbia Tractor and Semi-Trailer Combinations</td>
<td>23.0 m (75 ft 5 in)</td>
<td>2.60 m (8 ft 6 in)</td>
<td>4.15 m (13 ft 7 in)</td>
<td>55.3 tonnes (122,900 lbs)</td>
</tr>
<tr>
<td>Alberta and British Columbia Double Trailer Combination</td>
<td>26.0 m (85 ft 4 in)</td>
<td>2.60 m (8 ft 6 in)</td>
<td>4.15 m (13 ft 7 in)</td>
<td>63.5 tonnes (140,000 lbs)</td>

<td>4.88 m (16 ft)</td>
<td>85 tonnes (187,400 lbs)</td>
</tr>
</tbody>
</table>

British Columbia Oversize-Overweight Permitting: Extraordinary Load Approval

- **There are no predefined weight and dimension limits under the BC Extraordinary Load Approval Process.** Each permit application is reviewed on a case-by-case basis. **Examples** of vehicle weights and dimensions that have been approved from the Lower Mainland region (Metro Vancouver) to the BC-AB border are provided below:

<table>
<thead>
<tr>
<th>WEIGHT</th>
<th>HEIGHT</th>
<th>WIDTH</th>
<th>LENGTH</th>
</tr>
</thead>
<tbody>
<tr>
<td>117.4 MT (258,823 lbs)</td>
<td>4.88 m (16 ft 6 in)</td>
<td>5.64 m (18 ft 6 in)</td>
<td>58.8 m (192 ft 11 in)</td>
</tr>
</tbody>
</table>

- Actual limits depend on seasonal conditions, routes and equipment used; however subject to the Extraordinary Load Approval Process vehicle configurations in excess of the general allowances can be approved.
- Weights greater than 117.4 MT can be approved subject to BC MoTI bridge engineering approval.

**RAIL PERMITTING**

Both CN, and CP railways service the Port’s on-dock rail facilities, and provide service to key destinations across North America.

Shipments outside the size and weight guidelines listed below may be accommodated, but must receive an official railway clearance supplied by the origin railroad company.
