

APPENDIX S

Energy Efficiency Study

APPENDIX S

G3 Terminal Vancouver
Port Metro Vancouver Project Permit Application

An Energy Efficiency Study will be submitted to Port Metro Vancouver to review on January 29, 2016. This study will have the following deliverables:

- Description of Proposed Facility
- Indication of feasible Energy Conservation Measures
 - Calculation or baseline energy consumption
 - Calculation of upgraded energy consumption
 - Association for the Advancement for Cost Engineering (AACE) Class 3 Cost Estimates
 - Review of non-electrical benefits
 - High level implementation strategy
