100 Bridge Road
West Vancouver, BC V7P 3R2

Dear Mr. Kalaji:

Re: Vancouver Fraser Port Authority Project Permit No. PER No. 17-090
Request for Construction Outside of Regular Work Hours
Metro Vancouver – Conveyance for North Shore Wastewater Treatment Plant

Vancouver Fraser Port Authority (the port authority) has received a request from you on behalf of Metro Vancouver, to carry out certain construction and physical activities, related to the above project, outside of the hours stated in Condition No. 51 of Project Permit PER No. 17-090. The port authority understands the request for construction outside of regular work hours is to expedite the construction schedule and limit the impact to public due to a long duration of the project and also meet project completion by December 2020. Concrete formwork and reinforcing is anticipated during extended hours and will include installation of scaffolding and building of floors and walls of the pump station.

The port authority has undertaken and completed a review of the requested amendment in accordance with the *Canada Marine Act*, section 5 of the Port Authorities Operations Regulations, and section 82 of the *Impact Assessment Act*.

As part of our review, the port authority considered additional information provided in the following supporting documents:

- Letter request from North Shore Conveyance Partners Design Build LP on behalf of Metro Vancouver requesting to conduct construction outside of regular work hours, received February 7, 2020

To meet the requirements of the *Impact Assessment Act*, the port authority posted a description of the requested amendment and notice of public participation to the Canadian Impact Assessment Registry and considered the factors set out in section 84. We concluded that the requested extension to work hours related to the project permit listed above, is not likely to cause significant adverse environmental effects. We also determined that adverse impacts to Aboriginal or Treaty rights are not expected.

Accordingly, the port authority authorizes the extended hours request allowing works between 6:00 am and 12:00am, Monday to Saturday excluding statutory holidays, for a period of 6 months (until **September 30, 2020**) for PER No. 17-090.

…/2

The port authority also authorizes an amendment to Project Permit PER No. 17-090 to replace condition No. 51 with the following revised condition.

REVISED CONDITION
All general construction and physical activities related to the Project shall be conducted from Monday to Saturday between the hours of 7:00 am and 8:00 pm. No construction and physical activities shall take place on Sundays or holidays. To modify these hours the Permit Holder must submit a plan, describing proposed activities and additional mitigation, to VFPA's satisfaction no less than 20 business days prior to the desired start date.

This amendment has been assigned Amendment PER No. 17-090-1. Please quote this reference number in all future correspondence. Thank you for your cooperation throughout our review. Should you have any questions regarding this approval, please contact Regan Elley at 604-665-9594 or Regan.Elley@portvancouver.com.

Yours truly,

VANCOUVER FRASER PORT AUTHORITY
