

Field studies information sheet – October 2017

The Vancouver Fraser Port Authority is conducting field studies in October 2017 as part of ongoing environmental and feasibility work for a possible Habitat Enhancement Program site at Maplewood.

| Study Name | Summary |
|--|--|
| Physical and biological conditions assessment – Maplewood marine area | <p><u>Timing:</u> Assessments will take place the weeks of October 16 and 23, 2017 during daylight hours.</p> <p><u>Purpose:</u> To assess the existing physical and biological conditions within the Maplewood marine area.</p> <p><u>Field work area:</u> The proposed work area is on the north shore of Burrard Inlet, approximately three kilometres east of the Ironworkers Memorial Bridge.</p> <p><u>Methods:</u> Biologists will conduct non-intrusive site visits to assess the existing physical and biological conditions influencing habitat at the site.</p> |
