

The following list details environmental decisions made by the Vancouver Fraser Port Authority for the period January 1, 2017 to December 31, 2017:

Please note, on July 13, 2015, the port authority launched a new project and environmental review (PER) process, which included the development of four new categories of review matching the scale and potential impacts of the project under review: A, B, C, or D. Project reviews that commenced prior to the launch of the new process are categorized as "legacy".
