

Portside/Blundell Road Improvements Project

You are invited to participate in an information session for the Portside/Blundell Road Improvements Project.

Event details

Date: Wednesday, July 8, 2020

Time: 1:00 p.m.–2:00 p.m.

Format: Online, webinar details will be provided upon RSVP

Topics

- Introduction to the project team
- Project updates
- Traffic management during construction

To RSVP for the webinar please register using the following link:

[Webinar Registration](#)

If you are unable to attend the session, the recorded webinar and a short questionnaire will be available afterwards.

About the project

This location and its connections to major transportation routes and facilities make it a popular industrial area for warehouses and transload business that pack and unpack shipping containers moving to and from the port. This corridor has some of the highest and most concentrated activity in the Greater Vancouver area for moving goods from terminals to rail lines and trucks, and off to other destinations.

The project includes:

- **A new overpass** on Portside Road at Blundell Road to cross over the CN rail line
- **Widening Blundell Road** from two lanes to four lanes, between the No. 8 Road intersection and just west of York Road
- **A new bridge** and extension of Portside Road over the No. 7 Road Canal

We are now working with Indigenous groups, municipalities and other stakeholders to undertake technical studies and engagement, advance project design, and plan for construction.
