Portside/Blundell Road Improvements Project

You are receiving this email because you signed up to receive updates related to the Portside/Blundell Road Improvements Project.

If you know someone who would like to receive updates, please encourage them to **add their email address to the list**.

Submit your feedback until July 22

The Vancouver Fraser Port Authority invites people who work and use the roadways in the Fraser Richmond Industrial Lands to provide input on the first phase of engagement for the Portside/Blundell Road Improvements Project.

Take the online survey

This is the first phase of a three-phase engagement process to ensure stakeholders are involved as the project progresses. We will summarize what we heard from this engagement and share it with stakeholders later this year, along with information on how input was considered in ongoing project planning.

You can learn more about the project team, the project, and traffic management during construction.

About the project

We are upgrading roadways in the Fraser Richmond Industrial Lands. This location and its connections to major transportation routes and facilities make it a popular industrial area for warehouses and transload business. This corridor has some of the highest and most concentrated activity in the Greater Vancouver area for moving goods.

The project includes:

- A new overpass at the intersection of Portside Road and Blundell Road to cross over the CN rail line
- Widening Blundell Road from two lanes to four lanes, between the No. 8 Road intersection and just west of York Road
- A new bridge and extension of Portside Road over the No. 7 Road canal

The project will reduce traffic congestion, remove rail crossing delays, improve container movements to and from warehouse facilities, support future development, provide better access for public safety and emergency vehicles, and allow for new CN rail tracks to better serve the surrounding industrial area.
