

# **Vancouver Fraser Port Authority**

Consolidated Financial Statements  
**December 31, 2019**  
(expressed in thousands of dollars)

## *Independent auditor's report*

To the Directors of Vancouver Fraser Port Authority and the Minister of Transport, Government of Canada

---

### *Our opinion*

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of Vancouver Fraser Port Authority and its subsidiaries (together, the VFPA) as at December 31, 2019 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

#### **What we have audited**

The VFPA's consolidated financial statements comprise:

- the consolidated statement of financial position as at December 31, 2019;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

---

### *Basis for opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Independence**

We are independent of the VFPA in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

---

*PricewaterhouseCoopers LLP*  
*PricewaterhouseCoopers Place, 250 Howe Street, Suite 1400, Vancouver, British Columbia, Canada V6C 3S7*  
*T: +1 604 806 7000, F: +1 604 806 7806*

"PwC" refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership.

---

## *Responsibilities of management and those charged with governance for the consolidated financial statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the VFPA's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the VFPA or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the VFPA's financial reporting process.

---

## *Auditor's responsibilities for the audit of the consolidated financial statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the VFPA's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the VFPA's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the VFPA to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the VFPA to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### 1 General information

Vancouver Fraser Port Authority (VFPA) is a non-share capital, financially self-sufficient authority established on January 1, 2008 by the Government of Canada pursuant to the Canada Marine Act (CMA). The address of the VFPA's registered office is 100 – 999 Canada Place, Vancouver, BC. The VFPA is the federal agency responsible for the stewardship of the Port of Vancouver. Like all Canada Port Authorities, VFPA are accountable to the federal minister of transport, and operate pursuant to the CMA with a mandate to enable Canada's trade through the Port of Vancouver, while protecting the environment and considering local communities. VFPA has control over the use of port land and water, which includes more than 16,000 hectares of water, over 1,000 hectares of land, and approximately 350 kilometres of shoreline. Located on the southwest coast of British Columbia in Canada, the Port of Vancouver extends from Roberts Bank and the Fraser River up to and including Burrard Inlet, bordering 16 municipalities and intersecting the traditional territories and treaty lands of several Coast Salish First Nations.

The VFPA and its wholly owned subsidiaries, Canada Place Corporation (CPC), Port of Vancouver Ventures Ltd. (PoVV), Port of Vancouver Holdings Ltd. (PoVH), Port of Vancouver Enterprises Ltd. (PoVE), Port of Vancouver Terminals Ltd. (PoVT), and Marine Safety Holdings Ltd. (MSH), are exempt from income taxes as the VFPA, on a consolidated basis, pays a gross revenue charge (federal stipend) as required per the Letters Patent under the authority of the CMA.

### 2 Basis of presentation and significant accounting policies

#### Basis of presentation

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and are presented in Canadian dollars, with all monetary amounts rounded to the nearest thousand (\$000) except when otherwise indicated.

The consolidated financial statements have been prepared on a historical cost basis except for those items measured at fair value as explained below. These accounting policies have been consistently applied to all periods presented, unless otherwise stated.

These consolidated financial statements were approved for issue by the VFPA Board of Directors on March 31, 2020.

#### Consolidation

These consolidated financial statements consolidate the accounts of the VFPA and its subsidiaries. All intercompany transactions, balances and unrealized gains and losses from intercompany transactions are eliminated on consolidation.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

Subsidiaries are all entities over which the VFPA has control. For accounting purposes, control is defined as (i) the power to govern the financial and operating policies of the subsidiary; (ii) exposure, or rights, to variable returns from involvement with the subsidiary; and (iii) the ability to use its power over the subsidiary to affect its returns.

### Leases - New standard adopted

#### Policy applicable after January 1, 2019

IFRS 16, Leases introduces significant changes to lessee accounting by removing the distinction between operating and finance leases. VFPA adopted IFRS 16 on January 1, 2019 using a modified retrospective approach where the cumulative impact of initial adoption is recognized in retained earnings at January 1, 2019 with no restatement of the comparative information. The comparative information continues to be reported under IAS 17 and IFRIC 4.

At lease inception, VFPA determines if it has the right to control the asset and accordingly recognizes a right of use asset, which is depreciated over the term of the lease and a corresponding lease liability, which is amortized using the effective interest rate method. If the lease is less than 12 months or has a lower dollar value, the lease is expensed on a straight-line basis over the lease term. There were no significant changes to accounting for leases as a lessor except where VFPA is an intermediate lessor as it will account for its interest in the head and sub-lease separately and determine if it has a right of use asset by referencing the head lease.

The financial impact from adoption using the modified retrospective approach on January 1, 2019 is as follows:

	As previously reported \$	Adjustments \$	Restated \$
<b>Assets</b>			
Accounts receivable and other assets	41,414	12	41,426
Long-term receivables	37,978	1,225	39,203
Property and equipment – net	1,466,697	1,492	1,468,189
<b>Liabilities</b>			
Accounts payable and accrued liabilities	56,129	155	56,284
Other long-term liabilities	3,902	1,976	5,878
<b>Retained earnings</b>			
Opening retained earnings	1,538,181	598	1,538,779

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### **Policy applicable before January 1, 2019**

A lease is an arrangement whereby the lessor conveys to the lessee in return for a payment, or series of payments, the right to use an asset for an agreed period of time. Leases in which a significant portion of the risks and rewards of ownership are retained by the VFPA are classified as operating leases.

The VFPA leases certain property and equipment. Leases of property and equipment are classified as operating leases where the VFPA does not have substantially all the risks and rewards of ownership. Operating lease rentals are recognized on a straight-line basis over the period of the lease.

Payments made under operating leases (net of any incentives received from the lessor) are recognized as an expense on a straight-line basis over the lease term in the consolidated statement of comprehensive income.

### **Cash and cash equivalents**

Cash and cash equivalents include cash on deposit with banks and short-term deposits with maturities of 90 days or less when acquired.

### **Trade and other receivables**

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

### **Financial instruments**

A financial instrument is any contract that gives rise to a financial asset or a financial liability.

#### a) Financial assets

##### i) Initial recognition and measurement

When first recognized, financial assets are classified as either amortized cost, fair value through other comprehensive income (OCI), or fair value through profit or loss. The classification when first recognized depends on the financial asset's contractual cash flow characteristics and the VFPA's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the VFPA initially measures a financial asset at its fair value.

For a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are "solely payments of principal and interest (SPPI)". This assessment is referred to as the SPPI test and is performed at an instrument level. The VFPA's business model refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### ii) Subsequent measurement

The VFPA's financial assets are subsequently measured at amortized cost as both of the following conditions are met:

- the financial asset is held intending to collect contractual cash flows, and
- the contractual terms of the financial asset have specified dates for cash flows that are solely payments of principal and interest.

Financial assets at amortized cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized or impaired. The VFPA's financial assets at amortized cost include cash and cash equivalents, accounts receivable and other assets, and long-term receivables. The VFPA does not have any financial assets classified as fair value through OCI or fair value through profit or loss.

### Impairment of financial assets

The VFPA assesses at year-end whether a financial asset or a group of financial assets is impaired. The VFPA recognizes an allowance for expected credit losses (ECLs) for all financial assets held at amortized cost. ECLs are based on the difference between the contractual cash flows due according to the contract and cash flows that the VFPA expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognized in two stages. Where there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). Where there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining period of exposure (a lifetime ECL).

For trade receivables, the VFPA applies a simplified approach in calculating ECLs. Therefore, the VFPA does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The VFPA has established a provision based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the reversal of the previously recognized impairment loss is recognized in the consolidated statement of comprehensive income.

### b) Financial liabilities

#### i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value, net of directly attributable transaction costs.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### ii) Subsequent measurement

The VFPA's financial liabilities are subsequently measured as follows:

- Accounts payable and accrued liabilities, other long-term liabilities and provisions at amortized cost using the effective interest method.
- Short-term borrowings and long-term obligations at amortized cost. Differences between the proceeds (net of transaction costs) and the redemption value is recognized in the consolidated statement of comprehensive income over the period of the borrowings using the effective interest rate method.
- Other financial liabilities at amortized cost. They are non-derivative financial liabilities with fixed or determinable payments. They are included in current liabilities if payment is due within one year or less from the reporting date. If not, they are presented as non-current liabilities.

### Deferred charges

Deferred charges relate to lease transaction costs, which are amortized over the lease term.

### Intangible assets

#### Gateway infrastructure

The VFPA incurs costs associated with the development of gateway infrastructure assets that it does not control. Costs include construction, engineering, project management and other direct project costs less any third party contributions.

While infrastructure assets are subsequently controlled and maintained by other entities, the VFPA will recover its costs incurred through gateway infrastructure fees. As the fee is controlled by VFPA, the gateway investment costs are recognized as intangible assets when capitalization criteria are met.

The gateway infrastructure investment costs recognized as intangible assets are amortized over the term of the gateway infrastructure fee.

#### Computer software

Costs associated with maintaining computer software programs are recognized as an expense when incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the VFPA are recognized as intangible assets when the capitalization criteria are met.

Directly attributable costs capitalized include software development employee costs.

Other development expenditures that do not meet the capitalization criteria are recognized as an expense when incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

Computer software development costs recognized as intangible assets are amortized over their estimated useful lives, not exceeding five years.

### Property and equipment

Property and equipment are stated at cost less accumulated depreciation and impairment losses. The cost of property and equipment includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes land survey costs, materials and internal labour costs as well as contractor expenses, any other costs directly attributable to bringing the asset to a working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. Costs are capitalized until such time as the asset is ready for use in the manner intended by management.

Borrowing costs directly attributable to financing the construction of qualifying assets are capitalized to all major capital projects. A qualifying asset is one that necessarily takes at least one year to construct.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the VFPA and the cost of the item can be reliably measured. The carrying amount of a replaced part is derecognized. All other maintenance and repair expenses are charged to the consolidated statement of comprehensive income when incurred.

Depreciation is recognized in the consolidated statement of comprehensive income on a straight-line basis over the estimated useful lives of each part of an item of property and equipment as this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives, unless it is reasonably certain that the VFPA will obtain ownership by the end of the lease term. Land and habitat bank assets are not depreciated.

The useful lives for each class of property and equipment are as follows:

Dredging	4 – 40 years
Berthing structures, buildings, roads and surfaces	10 – 75 years
Utilities	10 – 50 years
Machinery and equipment	3 – 25 years
Office furniture and equipment	3 – 10 years
Leasehold improvements, and right-of-use	Term of lease

Depreciation commences as and when the asset is available for use.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of comprehensive income.

### **Impairment of non-financial assets**

The VFPA performs impairment tests on property and equipment when events or circumstances occur that indicate the asset(s) may not be recoverable. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

When impairment indicators are identified, the recoverable amount of the cash-generating unit is determined. The recoverable amount is the higher of the cash-generating unit's fair value less costs to sell and value in use. An impairment loss is recognized for the amount by which the cash-generating unit carrying value exceeds its recoverable amount. Non-financial assets that suffered an impairment are reviewed for possible reversals of the impairment at each reporting date.

### **Provisions**

Provisions for environmental restoration, leased site restoration, local channel dredging contributions and legal claims are recognized when the VFPA has a legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a rate that reflects current market assessments of the time value of money. The increase in the provision due to the passage of time is recognized as finance costs.

### **Payments in lieu of taxes (PILT)**

Payments are estimated by the VFPA in accordance with the Payments in Lieu of Taxes Act. Accruals are re-evaluated each year and changes, if any, are made in the current period's consolidated financial statements based on the best available information, including the results, if any, of appraisals by an independent consulting firm. PILT is paid on all unoccupied (dry) land and all submerged lands in the Burrard Inlet, Fraser River, and Roberts Bank except for Indian Arm and the navigation channels.

### **Employee future benefits**

The VFPA has three benefit plans (Legacy Vancouver Port Authority (LVPA), Legacy Fraser River Port Authority (LFRPA), Legacy North Fraser Port Authority (LNFPA)), where employees from the legacy ports have remained in their respective benefit plans upon amalgamation. Employees hired after January 1, 2008 are eligible for the LVPA plan. The three benefit plans are described in detail in note 13.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

The asset or liability recognized in the consolidated statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

The measurement date for the defined benefit plans is December 31.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to other comprehensive income (loss) in the period in which they arise.

Past service costs are recognized immediately, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are charged to accumulated other comprehensive income and amortized to the consolidated statement of comprehensive income on a straight-line basis over the vesting period.

The VFPA also maintains other non-funded benefits for eligible employees. The VFPA accrues in its accounts annually the estimated liabilities for severance pay, annual leave and overtime compensatory leave, which are payable to its employees in subsequent years.

### **Revenue recognition**

#### Port income

The VFPA provides port services to customers, primarily access to the harbour, and shipping terminals. Revenue for services is recognized at a single point in time, based on a vessel's arrival or departure.

#### Rental income

The VFPA leases property to customers, primarily for shipping terminals or other supply chain support services. Fixed lease revenue is recognized on a straight-line basis over the term of the lease. Contingent based lease revenue is recognized periodically, based on lessee cargo volumes, or other revenues as stipulated in the respective agreements.

#### Other income

The VFPA provides various other customer services and earns interest on cash held in banks. These revenues are recognized in the period the services are provided or period in which interest is earned.

Deferred revenue represents cash received in advance of the revenue recognition criteria being met.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### **River dredgeate and dredging**

Costs of removing river dredgeate that is in the nature of maintenance of navigable waterways to a standard of depth are expensed. However, costs of river dredgeate removed from the waterway for maintenance, placed on the VFPA property, and which better that property, are capitalized.

Dredging costs that deepen navigable waterways to establish a new standard of depth for future economic benefit are capitalized. Proceeds from the sale of river dredgeate derived from maintenance are recorded as a reduction of the expense. If proceeds are derived from dredgeate originally placed on the VFPA property as a betterment, the proceeds are recorded as a reduction of property and equipment.

### **Federal stipend**

Under the CMA, the VFPA is obligated to pay annually to the Minister of Transport a charge to maintain its Letters Patent in good standing. The charge is calculated by reference to gross revenue at rates on a sliding scale varying between 2% and 6% depending on the gross amount.

### **Government grants and non-government contributions**

Government grants and non-government contributions, including non-monetary grants at fair value, are not recognized until there is reasonable assurance that the VFPA will comply with the conditions attaching to them and the grants will be received. Government grants and non-government contributions related to assets are presented in the consolidated statement of financial position by deducting the grant in arriving at the carrying amount of the asset, and lower depreciation in the consolidated statement of comprehensive income.

### **Non-monetary transactions**

All non-monetary transactions are measured at the fair value of the asset surrendered or the asset received, whichever can be more reliably measured, unless the transaction lacks commercial substance or the fair value cannot be reliably established. The commercial substance requirement is met when the future cash flows are expected to change significantly because of the transaction. When the fair value of a non-monetary transaction cannot be accurately measured or the transaction lacks commercial substance, it is recorded at the carrying value of the asset given up adjusted by the fair value of any monetary consideration received or given.

## **3 Accounting standards not yet adopted**

Certain new accounting standards and interpretations have been published that are not mandatory for reporting periods at December 31, 2019 and have not been early adopted by the group. These standards are not expected to have a material impact on VFPA in the current or future reporting periods and on foreseeable future transactions.

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### 4 Financial management

#### Financial risk factors

The VFPA utilizes financial instruments in the normal course of business and takes action to mitigate the associated risks. The use of financial instruments exposes the VFPA to market risk, credit risk and liquidity risk. Management reviews these risks on an ongoing basis to ensure that the risks are appropriately managed. Other than as described below, management does not consider any other risks to be significant to the VFPA.

#### Fair value

The carrying values of accounts receivable and other assets, and accounts payable and accrued liabilities, approximate their fair values due to the short term to maturity of these instruments. The carrying values of drawings on available credit facilities approximate their fair values, as they bear floating interest rates that approximate market rates and have short-term maturity.

As at December 31, 2019, the fair value of the Series A Debentures was \$101.7 million (2018 – \$103.5 million) based on a 3 month Government of Canada Treasury Bill and a market interest rate of 2.01% (2018 – 2.56%). The fair value was calculated using Level 2 inputs under a discounted cash flow approach.

#### Market risk

The VFPA's interest-bearing financial assets consist of loans, note and lease financing receivables, which bear interest at fixed rates. The VFPA's debt portfolio comprises both fixed (Series A Debentures) and variable rate (demand loan) debt instruments. The VFPA minimizes its interest rate risk by monitoring the movements of the interest rate and cash flows.

The VFPA has arranged a \$200 million credit facility, which is undrawn as outlined in note 12. The funds are available to the VFPA by way of adjusted prime rate-based loans or by way of Banker's Acceptances.

The Series A Debentures of \$100 million has a fixed interest rate of 4.63% as outlined in note 12. These interest payments are known with certainty for the 10-year bond period and are incorporated into the VFPA's monthly cash flow forecasts.

For the year ended December 31, 2019, with other variables unchanged, there is no material effect on the net cash flows for an interest rate change of 1% per annum related to credit facilities.

#### Credit risk

Credit risk is the risk of financial loss to the VFPA if a customer or counterparty defaults on their contractual obligations. Credit risk is managed by the VFPA through counterparty financial statement analysis and obtaining guarantees or financial security when appropriate. Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables. The VFPA limits its exposure to credit loss by regularly monitoring the creditworthiness of customers and debtors. The VFPA believes it has adequately provided for any exposure to potential credit loss.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### **Liquidity risk**

Liquidity risk is the risk that the VFPA will not be able to meet its financial obligations as they fall due. The VFPA's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient cash flow to fund its operations and to meet its liabilities when due. The VFPA also maintains certain credit facilities that can be drawn upon as needed. As per its liquidity policy, the VFPA will maintain an operating liquidity level equivalent to the greater of at least 10% of its debt level or the past six months of expenses.

As at December 31, 2019, VFPA has unsecured short-term borrowings and debentures totalling \$103,316 on an undiscounted cash flow basis that are payable during 2020.

### **Capital risk management**

The VFPA has the objective of ensuring the safety of its cash and cash equivalents and maintaining the liquidity necessary to pay obligations as they become due. In order to do so, the VFPA holds its cash balances in conservative, highly liquid facilities. The cash portfolio is diversified to minimize the risk of loss resulting from overconcentration of holdings in any one specific financial institution. Cash balances are only invested in top tier financial institutions in Canada and the VFPA's cash position is monitored on a daily basis and rebalanced as necessary. The VFPA's cash management and investment activities are constrained by the CMA and the Categories of Investments Schedule of the Port Authorities Management Regulations, which stipulates the types of investments permitted and minimum rating requirements.

## **5 Critical accounting judgments and estimates**

The VFPA makes judgments, estimates and assumptions concerning the future. The resulting accounting estimates, by definition, will seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

### **Capitalization of costs and impairment**

The VFPA makes judgments as to whether certain costs are directly attributable to property and equipment to warrant capitalization. The VFPA also makes judgments in terms of assessing the likelihood and probability that capital projects will proceed.

The VFPA assesses annually whether there are any indicators that items of property and equipment and intangible assets may be impaired. If indicators of impairment exist, the recoverable amounts of cash-generating units is determined to be the higher of the fair value less costs to sell and value in use. These recoverable amount calculations require the use of estimates including, but not limited to, discount rates and future cash flows.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### Employee future benefits

The present value of the pension obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) for pensions include discount rate, inflation rate, salary growth rate, mortality rate and medical cost trend rate. Any changes in these assumptions will impact the carrying amount of pension obligations. The VFPA determines the appropriate discount rate at the end of each year. In determining the appropriate discount rate, the VFPA considers the interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension obligation. Other key assumptions for pension obligations are based in part on current market conditions. Additional information is disclosed in note 13.

### Environmental liabilities

The VFPA has contingent liabilities and provisions for environmental restoration requirements at a number of its properties. The nature, extent, timing and cost of cleanup of these properties are based on management's best estimates, with input from third-party specialists, where applicable. Provisions recognized in the VFPA's consolidated statement of financial position are discounted using an appropriate risk-free rate.

VFPA's environmental staff keeps track of contaminated or possibly contaminated properties during the year, and are part of the team conducting due diligence on all property acquisitions. At year-end, each property is assessed for possible environmental provisions in accordance with IAS 37, Provisions, Contingent Liabilities and Contingent Assets. The provision does not include restoration costs on leased properties where tenants are obligated to incur the costs and have sufficient financial capacity to fulfill their lease obligations. Uncertainty exists over actual environmental restoration costs to be incurred due to the estimates involved in performing the assessment.

## 6 Accounts receivable and other assets

	2019	2018
	\$	\$
Trade receivables	6,355	9,084
Provision for impairment	(185)	(2,901)
Accrued rental income	12,453	11,314
Accrued port income	9,889	11,403
Restricted funds	5,506	5,445

	<hr/>	<hr/>

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

As at December 31, 2019, accounts receivable and other assets include \$5,505,826 in restricted funds (2018 – \$5,444,714). Restricted funds are project related deposits, foreshore property owner, truck licence, and tenant security deposits, including accrued interest. Once information has been submitted to the VFPA's satisfaction, project related deposits are refunded in full plus interest. The foreshore property owner deposits are held to guarantee that the dykes on such properties will be maintained by the owners. The single largest amount of the restricted funds is \$825,179 held for the replacement of a pile wall and a protection system at a terminal (2018 – \$808,279).

The VFPA applies the simplified approach to providing for expected credit losses which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The loss allowance provision is determined as follows:

December 31, 2019 – Days past due

	<b>Current</b>	<b>31 to 60 days</b>	<b>61 to 120 days</b>	<b>121 to 180 days</b>	<b>Over 180 days</b>	<b>Total</b>
Expected loss rate	0.26%	2.54%	8.70%	16.33%	25.88%	
Gross carrying amount	5,330	276	92	147	510	6,355
Loss allowance	14	7	8	24	132	185

Movements on the provision for impairment of accounts receivable are as follows:

	<b>2019</b>	<b>2018</b>
	<b>\$</b>	<b>\$</b>
Balance – January 1	2,901	2,863
Provision for impairment	37	53
Receivables written off during the year as uncollectable	(2,753)	(15)
Balance – December 31	185	2,901

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

### 7 Long-term receivables

	2019 \$	2018 \$
Long-term lease receivable	41,429	31,724
Loans receivable from tenants	13,080	5,503
Restricted funds	1,730	1,504
Lease financing	1,346	89
	<hr/>	<hr/>
	57,585	38,820
Less: Current portion	1,408	842
	<hr/>	<hr/>
	56,177	37,978
	<hr/>	<hr/>

The long-term lease receivable is the difference between rental revenue recorded on a straight-line basis and payments received to date.

The loans receivable from tenants includes an unsecured loan of \$11 million plus accrued interest for site development costs. The development completed in 2019 and the loan bears interest at 10%, maturing in 10 years.

The restricted funds are reserves that tenants contribute to in order to finance long-term capital replacement and repair to certain equipment.

The lease financing includes a sub-lease receivable from a tenant, with the present value of the lease payments discounted at 4.5%. The lease expires in 2057. The opening balance impact on adoption to IFRS 16 (note 2) was an increase in lease financing receivable of \$1,237,439 (\$12,296 current portion and \$1,225,143 long-term).

The VFPA receives funding from the Government of Canada, and Transport Canada to be used to reimburse the VFPA for the purchase and development of assets. During 2019, the VFPA received \$1,809,801 in funding (2018 – \$662,371). The funding is recognized as a reduction to amortization over the expected useful life of the related asset.

It is VFPA's policy to review construction-in-progress annually to assess the potential of the capital expenditures to provide future benefits. In 2019, \$nil (2018 – \$372,938) relating to potential capital projects was written off.

<b>Net book value</b>	<b>1,213,557</b>	<b>126,874</b>	<b>14,242</b>	<b>316,198</b>	<b>47,922</b>	<b>19,647</b>	<b>1,738,440</b>

Federal property and other property belong to Canada. Federal property is registered to Her Majesty the Queen while other property is registered to the VFPA. The properties are managed by the VFPA as an agent of the Crown. The VFPA is responsible for performing necessary maintenance, restoration and replacement of federal property it manages. Federal property cannot be pledged as collateral while other property can be pledged as collateral.

The VFPA receives funding from the Government of Canada, Transport Canada and the Province of BC to be used to reimburse the VFPA for the purchase and construction of assets. During 2019, the VFPA received \$14,981,422 in funding (2018 – \$2,907,732). The funding is recognized as a reduction to depreciation over the expected useful life of the related asset.

VFPA adopted the new leasing standard IFRS 16 (Note 2) on January 1, 2019 with an impact of \$1,492,045 to record right-of-use assets. As at December 31, 2019, VFPA had right-of-use asset additions of \$8,289,501 with a net book value of \$8,012,299 that is included in Office, furniture, equipment and leasehold improvements and other. Included in depreciation expense is \$277,202 related to right-of-use assets.

Annually, VFPA assesses impairment of its assets including construction-in-progress assets to determine if there are any indicators of impairment that would require a write-down of the asset. As no indicators of impairment were identified and construction-in-progress assets continue to have a future benefit, no write-offs were recognized.

During the year, VFPA entered into a non-monetary asset exchange with an arms-length party and incurred a gain on the disposal of assets.

a) Environmental restoration

The VFPA incurs various environmental liabilities relating to its activities. A provision is recognized for the present value of costs expected to be incurred for the restoration thereof. The provision charge is recognized in the consolidated statement of comprehensive income within other operating and administrative expenses. The unwinding of the discount is recognized in the consolidated statement of comprehensive income as a finance cost. The timing of the expenditures is estimated from one to 15 years. Uncertainties on the timing for use of this provision includes changes in the future that could impact the time at which the VFPA is required to incur these restoration costs, such as the timing of property development.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

b) Leased site restoration

The VFPA leases properties from others which, at the end of the lease, may require structures to be demolished and the site restored. A provision is recognized for the present value of costs expected to be incurred for the restoration. The provision is recognized in the consolidated statement of financial position, and is amortized over the term of the lease. The unwinding of the discount is recognized in the consolidated statement of comprehensive income as a finance cost. Estimated future costs are reviewed periodically and adjusted as required. Changes in the estimated future costs, or in the discount rate are added or deducted from the cost of the asset.

c) Claims

The amount represents a provision for certain claims brought against the VFPA. The provision charge is recognized in the consolidated statement of comprehensive income within other operating and administrative expenses. The outcome of these claims is not expected to give rise to any significant loss beyond the amounts provided for.

d) Local channel and other contributions

The amount represents a provision where the VFPA has publicly committed to contribute to a number of community projects, including local channel dredging contribution. The provision charge is recognized in the consolidated statement of comprehensive income within other operating and administrative expenses.

## 12 Borrowings

a) Long-term obligations

	2019	2018
	\$	\$
Series A Debentures	99,968	99,866
Less: Current portion	99,968	-
	<u>-</u>	<u>99,866</u>

Series A Debentures are unsecured and bear interest at 4.63% payable semi-annually, and will become due on April 20, 2020. Interest is payable in arrears on April 20 and October 20 of each year.

The VFPA has available a five-year, \$200 million revolving loan facility with Toronto Dominion Bank. The facility is unsecured and bears interest at the Canadian prime rate of the bank less 0.85% per annum. The VFPA pays a fee of 0.27% per annum on bankers' acceptances and letters of credit issued and standby fees at an annual rate of 0.025% calculated on the unused, authorized portion of the facility. Amounts outstanding may be repaid at any time without penalty and must be repaid by December 12, 2022. As at December 31, 2019, the VFPA has not borrowed from the facility.

On April 20, 2020, VFPA will be required to repay principle amounts of \$99,968.

(figures in tables are expressed in thousands of dollars)

b) Short-term borrowings

	2019 \$	2018 \$
PoVT unsecured demand loan	1,001	1,101

As at December 31, 2019, the VFPA has a total of \$8.55 million in letters of credit outstanding (2018 – \$6.15 million).

PoVT has a demand loan outstanding through its loan arrangement with Toronto Dominion Bank. The demand loan is unsecured and bears interest at the Canadian prime rate less 0.85% per annum. Minimum quarterly principal repayments of \$25,000 are required, and amounts outstanding may be repaid at any time without penalty and must be repaid by December 12, 2022.

PoVH had a non-revolving demand loan bearing interest at prime plus 0.125% per annum. The loan was fully repaid at December 31, 2018.

c) Changes in liabilities arising from financing activities

	January 1, 2019 \$	Impact on adoption of IFRS 16 \$	Cash flows \$	Other \$	December 31, 2019 \$
Short-term borrowings	1,101	-	(100)	-	1,001

	100,967	1,498	(271)	2,150	104,344

### 13 Employee future benefits

The VFPA has a defined contribution pension plan (RRSP) for all employees hired after March 1, 1999. Under the defined contribution plan, employees may contribute certain amounts annually with the VFPA providing matching contributions.

The VFPA also has three benefit plans (LVPA, LFRPA, and LNFPA), where employees from the legacy ports have remained in their respective benefit plans upon amalgamation, and a supplemental pension plan and other post-employment benefit plans for eligible employees. A defined benefit plan is a pension plan where retirement benefits are based on the employees' year of credited service and remuneration.

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

The VFPA has a funding policy for the LVPA and LNFPA defined benefit plans. These plans are contributory and require member contributions until the members attain 35 years of credited service. The VFPA will fund plan benefits measured on a going concern basis and provide adequate funding for future service benefits in accordance with the applicable laws and plan texts. Emerging plan experience, changes in assumptions, and improvements to past service benefits will result in actuarial gains and losses, sometimes giving rise to going concern and/or solvency funding deficits. The VFPA will apply its discretion in determining how rapidly it will fund deficits in accordance with the applicable laws. The VFPA reserves the right to use other funding mechanisms permitted by the applicable laws such as use of letters of credits (note 12).

The funding obligations for these plans are expected to be approximately \$2,777,400 in 2020.

The legacy benefit plans are described as follows:

a) LVPA Plans

The VFPA maintains defined benefit pension plans for eligible employees. Employees hired before March 1, 1999 had the option of remaining with the Government of Canada Public Service Superannuation Plan or transferring their past service credits into the new defined benefit plan of the VFPA. By the end of 2004, all transfers of service credits and assets were made for employees who elected to transfer their Superannuation Pension into the LVPA pension plan.

The VFPA also maintains other non-funded benefits for eligible employees. All employees who retire from the VFPA and who receive a defined benefit pension are eligible for an extended health care plan. Coverage is optional and is partly paid by the VFPA. In addition, a very limited number of senior management employees who retire from the VFPA are eligible for a grandfathered post-retirement life insurance plan. This benefit is fully paid by the VFPA.

	<b>83,385</b>	<b>10,869</b>	<b>75,951</b>	<b>11,437</b>

### b) LFRPA Plans

The VFPA has a defined contribution registered pension plan for the LFRPA employees where employees contribute certain amounts annually and the VFPA provides matching contributions, with the exception of three employees where the VFPA's match is higher than the employees' contribution up to a maximum percentage. There are also two unfunded supplemental defined benefit pension plans for designated employees that are in addition to the retirement income provided for under the registered defined contribution plan. The two supplemental plans are the Executive Individual Supplemental Pension Benefit (EISPB) and the Supplemental Pension Arrangement for Selected Employees (SPASE).

## Notes to Consolidated Financial Statements

December 31, 2019

(figures in tables are expressed in thousands of dollars)

e) Actuarial assumptions

The key actuarial assumptions used for the defined benefit pension plans are summarized below:

	<b>Pensions</b>	
	<b>2019</b>	<b>2018</b>
	%	%
<b>Economic assumptions</b>		
Discount rate at beginning of year	3.70	3.40
Discount rate at end of year	3.10	3.70
Expected long-term rate of return of plan assets	3.10	3.70
Inflation rate (future salary increases)	2.00	2.00

The key actuarial assumptions used for the non-pension post-employment benefit plans are summarized below:

	<b>2019</b>	<b>2018</b>
<b>Economic assumptions</b>		
Annual rate of inflation for MSP	0%	4%
Annual rate of extended health care inflation	7.00 % per annum, grading down annually by 0.25% per annum to 4.5% per annum and remaining at that level thereafter	7.00% per annum, grading down annually by 0.25% per annum to 4.5% per annum and remaining at that level thereafter

f) Sensitivity analysis

The sensitivity of the overall pension liability to changes in the weighted principal assumptions is as follows:

	<b>Change in assumption</b>	<b>Impact on overall liability</b>
Discount rate	Decrease by 1%	Increase of 17.1%
Inflation rate	Increase by 1%	Increase of 16.1%
Salary growth rate	Increase by 1%	Increase of 0.2%
Rate of mortality	Decrease by 10%	Increase of 2.4%
Medical cost trend rate	Increase by 1%	Increase of 19.9%

The effect of a 1% increase in the medical cost trend rate is:

	<b>Current</b>	<b>1% increase</b>
	\$	\$
Accrued benefit obligation	1,627	1,950
Current service cost	-	-
Interest cost	50	60

# Vancouver Fraser Port Authority

## Notes to Consolidated Financial Statements

December 31, 2019

---

(figures in tables are expressed in thousands of dollars)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on the defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

g) VFPA Defined Contribution Pension Plan (RRSP)

	<b>2019</b>	<b>2018</b>
	\$	\$
Employer contributions	2,332	2,047

## 14 Commitments

Capital projects, which are authorized or committed, and where the expenditures are estimated to exceed \$1 million, as at December 31, 2019 are as follows:

	<b>Spending to date</b>	<b>Commitments at year-end</b>	<b>Total authorized cost</b>
	\$	\$	\$
Container expansion	549,006	308,866	1,110,221
Land acquisition and development	30,814	523	57,299
Infrastructure improvement	196,978	134,348	458,709
Other terminal redevelopment and improvements	17,140	4,942	25,615
Total commitment	793,938	448,679	1,651,844

The VFPA is committed under a lease agreement with Fraser Surrey Docks to use reasonable commercial efforts to maintain the main channel of the Fraser River, within its jurisdiction, to a specific navigable depth. The VFPA has entered into a contract with Fraser River Pile & Dredge (GP) Inc. (FRPD) for dredging to maintain the navigation channels of the Fraser River. Under the 11-year contract expiring on December 31, 2022, the VFPA pays FRPD service fees totalling \$3,024,684 per annum regardless of the amount of dredging required in any dredging season.

## Notes to Consolidated Financial Statements

December 31, 2019

(figures in tables are expressed in thousands of dollars)

### 15 Contingent liabilities

#### Roberts Bank expansion

The Expansion Agreements obligate the VFPA to provide construction contracts, construction employment and operations employment to TFN enterprises and its members in connection with the anticipated Roberts Bank Terminal 2. Should construction of Terminal 2 not proceed, the VFPA will fail to meet this obligation and liquidated damages will be required. The obligation amount is \$2,584,582 and if the obligation is not met, liquidated damages up to \$956,573 would be required.

### 16 Key management personnel

Compensation in respect of key management personnel is disclosed below. In addition, the total remuneration is disclosed for all Board of Directors, the Chief Executive Officer and the top earning officers or employees in terms of the Port Authority Management Regulators.

		Fees \$	Benefits \$	Total \$
<b>Board of Directors</b>				
Chan, Bruce	Director, VFPA (from May 14, 2019)	28	3	31
Corrigan, Michael	Director, VFPA	56	-	56

### 17 Gateway infrastructure program

The VFPA and its partners are leveraging Provincial and Federal Government funding for a generational investment in supply-chain infrastructure improvements. The Gateway Infrastructure Program (GIP) is a \$717 million investment in supply chain improvements beyond traditional port activities and lands. The VFPA and industry contributions of the GIP is \$167 million, under a series of improvements in three locations:

	<b>Total VFPA and industry contributions</b>	<b>Industry funded portion (90%)</b>	<b>VFPA portion (10%)</b>
	\$	\$	\$
North Shore trade area	59,000	53,100	5,900
South Shore trade area	58,000	52,200	5,800
Roberts Bank rail corridor	50,000	45,000	5,000
	167,000	150,300	16,700

In order to recover the 90% industry funded portion, the Gateway Infrastructure Fee was instituted effective January 1, 2011. Below are the fees collected and expenditures made in 2019 and to date:

	<b>Current year</b>				<b>Total to date</b>			
	<b>North Shore trade area</b>	<b>South Shore trade area</b>	<b>Roberts Bank rail corridor</b>	<b>Total</b>	<b>North Shore trade area</b>	<b>South Shore trade area</b>	<b>Roberts Bank rail corridor</b>	<b>Total</b>
	\$	\$	\$	\$	\$	\$	\$	\$
Gateway infrastructure fee (revenue)	2,535	4,049	1,985	8,569	22,430	26,584	19,323	68,337
Gateway infrastructure program (expenditures)	(291)	(514)	-	(805)	36,654	55,601	40,535	132,790
Less: Industry funded portion (90%)	262	463	-	725	(32,989)	(50,041)	(36,482)	(119,512)
VFPA portion (10%)	(29)	(51)	-	(80)	3,665	5,560	4,053	13,278

---

(figures in tables are expressed in thousands of dollars)

In 2015, the VFPA and the Federal Government reached two agreements under the Shore Power Technology for Ports Program. The first was for a contribution of up to \$3.5 million by the Federal Government toward the Centerm Container Terminal Shore Power Project, and the second was for a contribution of up to \$2.5 million by the Federal Government toward the Deltaport Third Berth Container Shore Power Project. In 2017, the VFPA and the Federal Government signed an amendment to the Deltaport contribution agreement to increase funding to up to \$3.6 million.

In 2015, the VFPA and the Federal Government reached an agreement for a contribution of up to \$0.5 million by the Federal Government for an Underwater Technology Study. In 2016, the VFPA and the Federal Government signed an amendment to the contribution agreement to increase funding to up to \$1.0 million. In 2017, the VFPA and the Federal Government signed two amendments to the contribution agreement to increase the funding to up to \$1.3 million. In 2018, the VFPA and the Federal Government signed another amendment to the contribution agreement to increase funding to up to \$1.5 million.

In 2016, the VFPA and the Federal Government reached an agreement for a contribution of up to \$6.0 million by the Federal Government under the Asia-Pacific Gateway and Corridor Transportation Infrastructure Fund (APGCTIF). This APGCTIF contribution was toward the Deltaport Terminal Road and Rail Improvement, Truck Staging Project.

In 2017, the VFPA and the Federal Government reached an agreement for a contribution of up to \$0.3 million by the Federal Government toward the Supply Chain Visibility project. In 2018, the VFPA and the Federal Government signed an amendment to the contribution agreement to increase the funding to up to \$0.5 million.

In 2018, the VFPA and the Federal Government reached an agreement for a contribution of up to \$1.6 million toward the Measuring and Mitigation of Underwater Vessel Noise project – Phase II. In 2019, the VFPA and the Federal Government reached another agreement for a contribution of up to \$5.4 million toward the Measuring and Mitigation of Underwater Vessel Noise project – Phase III.

In 2019, the VFPA and the Federal Government reached five agreements for contributions by the Federal Government under National Trade Corridors Fund (NTCF). The first was for a contribution of up to \$67.6 million by the Federal Government toward the Burrard Inlet Road and Rail Improvement Project. The second was for a contribution of up to \$1.1 million by the Federal Government toward the Westwood Street and Kingsway Avenue Grade Separation Project. The third was for a contribution of up to \$2.1 million by the Federal Government toward the Pitt River Road and Colony Farm Road Rail Overpass Project. The fourth was for a contribution of up to \$76.9 million by the Federal Government toward the Burnaby-North Shore Rail Corridor Improvement Project. The fifth was for a contribution of up to \$48.8 million by the Federal Government toward the Harris Road Underpass and Kennedy Road Overpass Project.

In 2019, CPC and the Federal Government reached an agreement for a contribution of up to \$0.5 million by the Federal Government toward the Canada Day at Canada Place.

## Notes to Consolidated Financial Statements

December 31, 2019

(figures in tables are expressed in thousands of dollars)

### 19 Port income

Port income disaggregated by revenue source is outlined below. The table also shows the basis on which port income is recognized at a point in time.

	2019 \$	2018 \$
<b>At a point in time</b>		
Wharfage	45,644	44,840
Cruise	20,999	15,893
Harbour dues	10,394	10,939
Gateway infrastructure fee	8,569	9,450
Berthage	6,776	6,985
Log revenues	14	15
	<hr/> 92,396	<hr/> 88,122

### 20 Leases

The future aggregate minimum lease rental revenue under non-cancellable operating leases are as follows:

	2019 \$	2018 \$
Within one year	147,676	133,260
After one year but not more than five years	551,348	482,354
More than five years	2,900,919	2,464,260
	<hr/> 3,599,943	<hr/> 3,079,874

Contingent-based rent revenue recognized in the consolidated statement of comprehensive income was \$21,425,325 (2018 – \$20,827,520).

### 21 COVID-19 pandemic and impact on VFPA's operations

The outbreak of COVID-19 could have a future material adverse effect on global economic conditions which may adversely impact VFPA's operations and results. The extent to which COVID-19 impacts VFPA's operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information that may emerge concerning the severity of COVID-19 and the actions taken to contain COVID-19 or treat its impact, among others.
