

# Annual declaration of no non-road diesel equipment as of January 1, 2023

## Background

Effective January 1, 2015, all tenants who operate, cause to be operated, or otherwise permit the operation of non-road diesel equipment on land leased from Vancouver Fraser Port Authority ("VFPA") must report, label, pay fees, etc. for certain equipment, in accordance with VFPA's 2023 fee schedule. Completing this form allows tenants, who do not have applicable equipment, to meet VFPA's requirements for the 2023 calendar year.

## Declaration

As an official representative of \_\_\_\_\_ (tenant name), I certify that there is no non-road diesel equipment in operation on land leased from VFPA as of January 1, 2022 to which the nonroad diesel equipment fee applies.

If during the 2023 calendar year this status changes, I will fulfill the annual reporting requirements outlined at <https://www.portvancouver.com/environmental-protection-at-the-port-of-vancouver/climate-action-at-the-port-of-vancouver/nrde/>

Signed: \_\_\_\_\_

Print name: \_\_\_\_\_

Position: \_\_\_\_\_

Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Date: \_\_\_\_\_

Complete and submit this form to Vancouver Fraser Port Authority environmental programs by January 31, 2022 by phone: (604-665-9000) or email: nrde@portvancouver.com.
